

WARWICK

Care Label 1W – Pile Fabrics Velvets and Chenille Wovens WarGuard Treated

Regular care (weekly)

- Vacuum regularly using low suction
- Rotate reversible cushions regularly
- Protect from direct sunlight

Spot cleaning

Treat spills and stains as soon as possible. Gently scrape any soil or mop any liquid from the surface of the fabric, apply proprietary cleaning agents strictly according to instructions to remove the residue of the spill. Do not saturate the fabric or interior with water or other cleaning liquids.

Cleaning

Do not remove cushion covers for separate cleaning or washing, even though they may have zippers. Shampoo clean using upholstery specific shampoo. Do not use dishwashing or laundry detergents. Do not wet filling. Do not scrub with a stiff brush. Gently vacuum to restore pile. Dry in shade away from direct heat and sun. Allow to dry thoroughly before re-use; or

Clean with warm-water extraction machine (max temp 30 degrees Celcius) or use a professional cleaning service. Only use upholstery specific detergent. Do not wet filling. Gently vacuum to restore pile. Dry in shade away from direct heat and sun. Allow to dry thoroughly before re-use.

After cleaning is complete, re-application of soil resistant treatment may be required.

CAUTION: Secondary applications of stain repellent treatments may affect the performance of some pre-treated fabrics. Please test on an inconspicuous area before applying.

Annual professional cleaning recommended.

Pilling

Can occur occasionally as a result of normal daily wear and should not be considered as a fault. Fibre pills can be removed by a battery operated pilling tool available from most haberdashery stores.

Shading

Orientation of pile fibres will be disrupted when sat upon, resulting in an apparently different shade on contact areas. This disruption of the pile fibres and consequent apparent colour change are inherent characteristics and should not be considered as defects.
