

LINIA

CREATING WARM AND INVITING SPACES WITH A SOFT, STONE-WASHED AESTHETIC

Made with 100% natural fibre and part of our LINIA range, TESORO is a soft, washable and dual-purpose collection that is perfect for creating warm, relaxed and inviting contemporary spaces. Plush and versatile in nature, TESORO features an aero finish with a stone-washed aesthetic, adding dimension and a casual yet natural element to its design and mood.

DESIGN: Featuring a piece dyed plain weave, TESORO embodies a refined chenille yarn with a gentle sheen that creates a subtle variation of colour and texture, adding dimension and highlighting the fabric's weave structure for a visually appealing finish.

APPLICATION: Oeko-Tex certified, this washable, contemporary plain is dual-purpose where it can be used for both drapery and upholstery applications. From cosy residential, to rustic commercial interiors, TESORO brings an inviting and relaxed aesthetic, and can be implemented in a myriad of interior spaces to create modern and traditional styles.

COLOURWAYS: With a generous colour palette of 18 hues, TESORO offers three distinct colour groups that can be applied to an array of interiors, creating a variety of moods and timeless spaces. Key neutrals in this collection are classic staples that include Chai, Vapour, Mink and Ash. For fashion forward colours, Clay, Honey, Rosewater, Opal and Kale are fun options for a contemporary, on-trend interior, while on the nature-inspired side, Cactus, Linseed, Stone, Lagoon and Graphite are tranquil hues that keep harmony and bring a natural aesthetic to the palette.

RATING: Washable and dual-purpose with Oeko-Tex certification, TESORO's versatility and generous colour range brings endless options of creations and designs, as well as interior styles and moods. Whether it's for a contemporary, transitional, or traditional style, TESORO is a collection that will suit any need for any space.
