MOHAIR, A NATURALLY ELEGANT TEXTURE WITH MODERN SOPHISTICATION

Beneath the beauty of mohair there's a rugged strength and raw elegance that speaks to its natural origins. A fabric that doesn't just decorate a room but elevates it by transforming the ordinary into a sanctuary of comfort and opulence.

Design: There is a sense of grandeur and refinement with KARIEGA that feels raw and pure, a dual-fiber fabric that is both sophisticated and resilient crafted with a short-pile, cut-velvet that has a matte finish, the formed result is a handsome fabric that will stand the test of time.

Application: KARIEGA'S soft and woolen composition will beautifully conform to a variety of furniture shapes and soft furnishings. From streamlined sofas to sculptural ottomans, its design will flow across silhouettes with a smooth, tailored appearance. KARIEGA is a heavy commercial, FR rated fabric making it suitable for large scale commercial projects.

Colourways: One of the most beautiful aspects to KARIEGA is its colour palette that showcases a multi-dimensional mottled effect. The colours span from richly pigmented hues such as Plum, Ochre, and Ink, to stone tones like Silver, and Charcoal. Accents of Turmeric, Grass, and Terracotta provide vibrant pops of colour where a more lively touch of luxury is required.

Rating: Heavy Commercial with Oeko-Tex certification and an AS1530.3 fire rating.
