POLARIS

## ORGANIC TEXTURES WITH FRACTAL OPULENCE - POLARIS by Warwick

Overview: Resembling the dry, broken texture of a desert landscape, POLARIS reimagines this abstract patina pattern in an array of opulent tone and texture. This transitional dual-purpose fabric offers a captivating combination of nature and luxe.

- **Design:** POLARIS features a jacquard weave with a piece-dyed, mixed yarn construction. These varying fibres take to the dye differently, enhancing its distressed and fractal aesthetic. POLARIS is a natural blend with a soft, weighty handle and subtle silky finish. This delivers this fabrics matte-sheen look and playful, adapting nature.
- **Application:** Fire rated with dual-purpose properties, POLARIS is perfect for creating luxury lampshades and drapery, cushions and upholstery. The nature of its patina pattern and mixed surface finish gives POLARIS its versatility, from organic tone and contrast to lavish impact.
- **Colourways:** POLARIS's organic texture comes in a selection of 12 adaptable colours. Pearl, Dusk and Sky bring natural hues with a warm and inviting nature. Nutmeg, Nougat and Honeycomb play on the earthy tones and character of the fabrics abstract pattern. Midnight, Thunder and Charcoal offer colours with an urban feel, bringing stronger contrast to the metallic nature of this fabric for more contemporary environments.
- **Rating:** Dual-purpose, AS1530.3 fire rated and Oeko-Tex certified, POLARIS's organic patina pattern offers an easy to use fabric for most environments. From subtle contrast to luxurious statement, this mixed fibre blend brings visual interest and movement to a space - creating an array of aesthetics in various applications.
