UNEARTHED LINES, UNBOUND LUXURY

A study in contrast – VOLTERRA'S organic stripes channel the raw beauty of nature while meeting architectural drama with a refined, curated aesthetic.

Design: Designed for those seeking a connection to their surroundings, VOLTERRA embraces structural beauty, allowing subtle details to tell a story that embodies quiet luxury. The striking vertical stripe design is enhanced with the use of natural fibres, cotton and linen, that feel poetically raw, using texture and tone to create effortless sophistication.

Application: Constructed as a 300cm wide railroad stripe, allowing it to be run continuously, VOLTERRA will draw attention, especially when used floor-to-ceiling. Whether framing a window or enveloping an entire room, VOLTERRA will effortlessly anchor a space with visual interest allowing the rest of the room to remain understated, proving that sometimes one striking element is all you need.

Colourways: The VOLTERRA colour palette harmonises serenity and strength using natural and expressive hues with the drama of a consecutive black feature stripe detail. Grounded with a neutral base, lengths of ash, rust, ink, sage and nectar flow through, mirroring ocean deep and outback desert tones that are equally refreshing as they are calming.

Rating: Yarn dyed and free from harmful substances with Oeko-Tex certification.

WORKROOM NOTE: Delicate in nature, VOLTERRA needs to be handled with care and is best suited by puddling to compensate for potential dropping due to natural fibre content.
