Aspire

Advanced and Aspirational Decor

Aspire Collection hanger

This striking contemporary chevron incorporates warm earthy colors and soft touch comfort, and is coloured to blend perfectly with our new co-ordinating 'Advance' textured plain. In combination, both make beautiful room statements on sofas, chairs, ottomans and cushions.

Woven on sophisticated looms combining soft touch chenille* yarns with continuous filament polyester. Both 'Aspire' and 'Advance' are yarn dyed* for optimum colour performance with Aspire testing to General Domestic performance ratings and Advance rating at Heavy Domestic / General Commercial.

Each fabric is also part of our 'Halo' fabric range, woven to precise specifications and tested to exacting standards for colourfastness, abrasion, inherent stain resistance and safety*. Halo fabrics are also resistant to pilling, mould and mildew and impervious to attack by moths, silverfish and insect pests.

* 'Chenille' – Often mistakenly referred to as a fibre, comes from the French word for caterpillar and describes a particular characteristic soft touch yarn construction.

* Yarn Dyed – Yarn colours are individually dyed prior to weaving. This is generally understood to provide greater colour consistency between production batches.

*Tested for absence of Free Formaldehyde (ISO14184-1:1998)
