

WARWICK

RELAXED WITH SOPHISTICATED STYLE – BYRON by Warwick

Overview: Offering a calm coastal aesthetic and soft tactile qualities, BYRON is a classic collection that is relaxed, rustic and inherently sophisticated. With a raw organic finish and a diverse selection of textured designs developed in Warwick's Melbourne studio, BYRON will bring a casual aesthetic to both contemporary and traditional interiors. Available in a warm colour palette of organic shades, this chic collection will create an effortless style that is comfortable and inviting yet naturally refined.

- Inspiration: Combining natural textures with soft muted tones and subtle designs, BYRON aims to provide a sophisticated twist on traditional cottage style.
- Application: Introducing a yarn dyed jacquard weave, BYRON is a versatile collection that will bring a soft organic feeling to any space. With a relaxed washable finish and natural cotton blend, BYRON is the ideal fabric for plush sofas, comfy bedspreads and cushions as well as multiple window finishes.
- Design: Boasting a range of transitional designs from Warwick's studio, BYRON is perfect for traditional, contemporary and coastal interiors. BRUNSWICK'S plain weave is balanced seamlessly by the folk-inspired floral patterns of BYRON, while BROADWATER'S textured stripe design creates a striking contrast with the geometric of BURLEIGH.
- Colourways: Key neutrals such as Mocha and Graphite offer elegance and classic style, while Sky and Indigo are contrasting shades of blue with an inherently coastal vibe. Lighter shades like Natural and Blush bring a soft and subtle aesthetic that is chic, polished and utterly on-trend.
- Rating: A dual-purpose fabric with a natural cotton blend and Oeko-Tex certification, BYRON is a timeless washable collection, making it perfect for both drapery and upholstery in residential settings.
