

WARWICK

A MODERN TAKE ON TRADITIONAL TECHNIQUES - CEDRIC by Warwick

Overview: A soft and durable tribute to the beautiful Ikat dyeing techniques, CEDRIC has brought this style to a modern and digital age. Ideal for adding pops of colour with hexagon geometrics, CEDRIC is perfect for any interior scheme.

- Inspiration: Recreating the traditional Ikat style, CEDRIC showcases classic hand-painted geometrics with a natural and organic feel on our plain base cloth MAZZA. An ideal choice for all upholstery applications with the added benefit of coordinating back with OKADA, OMAR, PRANA, RIKA and SIMONA.
- Design: Digitally printed on an embossed warp knit, CEDRIC reimagines the traditional Ikat dyeing technique with its painterly brush strokes and casual hexagon geometrics. CEDRIC has a sophisticated and modern feel adding gentle texture and interest in the details of the print and embossed texture of the weave.
- Application: CEDRIC is a perfect solution for all upholstery needs. Its heavy commercial rating and HALO characteristics mean it is ideal for colourful accents or statement pieces in any situation. CEDRIC creates a simple and playful feel, fitting for the urban environment.
- Colour: Natural brings a subtle and sophisticated feel to a timeless pattern with calming beige, taupe and silver tones. Lagoon evokes a bright and playful coastal feeling with hues of aqua, lime and blue. Warm and earthy in look and feel, Spice draws on a palette of berries, oranges and warm greys.
- Rating: FR rated with HALO properties and a heavy commercial rating. CEDRIC is an easy to clean collection bringing a fun and playful feel to commercial and residential interiors. Contemporary in look and feel, CEDRIC's embossed texture and stroke style create a timeless mid-scale print for a variety of applications.
