COOLANGATTA

CREATE A TROPICAL RETREAT INDOORS - COOLANGATTA by WARWICK

COOLANGATTA brings a maximalist approach through the use of pattern and vibrant colourways that will create a bold statement and provide the perfect anchor to create a uniquely personal space that feels carefree, with the essence of a tropical holiday.

- **DESIGN:** Tropical patterns are characterised by their use of natural motifs with a dynamic and flowing composition mimicking the patterns of flora and fauna. COOLANGATTA has been exclusively hand drawn by the Warwick Design Studio then transposed into a beautifully coordinated pattern that uses scale and flow to create a sense of movement and spontaneity. Using the effects of a textural contrast to add dimension to the print, it has a soft relaxed hand feel with a dry finish.
- **APPLICATION:** COOLANGATTA has versatility in mind and can be used across a range of applications. Create a focal point in the room by using on a feature chair or use as drapery to emphasise bringing the outdoors in to cultivate a homely tropical sanctuary. The subtleness of pattern is also ideal for mixing and matching with other organic and geometric designs, building a playful environment to be enjoyed throughout the year on cushions and accessories.
- **COLOURWAYS:** Available in 6 colourways, COOLANGATTA can be integrated into classic and themed interior styles that use neutrals, pastels or brighter seasonal palettes. Covering the basics with options containing blues, oranges, greens and reds, whether an interior space uses cooler tones or warmer, a complimentary COOLANGATTA colourway will complete the look with its rich, well-coordinated hues.
- **RATING:** A 100% polyester, FR 1530.3 rated, washable range suitable for drapery and heavy commercial, with Halo easy-clean properties making it perfectly suitable for commercial and residential applications.
