## WORLDLY, ECLECTIC PATTERN FOR A UNIQUE STYLE - MEDINA By Warwick

For a worldly, eclectic style, embrace your surroundings with colourful and expressive MEDINA. Designed in the Warwick studio with the inspiration of global textiles, MEDINA is a washable contemporary collection of fun patterned designs and a complementing plain that will bring a myriad of moods and styles for both traditional and classic interiors.

- **DESIGN:** In two variegated designs made to mix and match, MEDINA is digitally printed on a soft touch polyester base cloth — its woven texture bringing an almost velvet look, lustrous sheen and plush feel. The exclusive patterns featured in this collection create unique and vibrant styles reminiscent to those found around the world, with MEDINA offering a contemporary take on a classic damask pattern; MINYA, a mid-scale geometric inspired by beautiful Mediterranean tiles; and CHAMBRAY, a timeless plain that effortlessly pairs back with both designs.
- **APPLICATION:** Washable with Halo easy-clean benefits, MEDINA brings a contemporary take on traditional patterns with a cheerful palette that creates vibrant, playful moods. Classic and bold, this collection is ideal for creating unique sofas to add character, as well as timeless cushions that will liven any residential or commercial space.
- **COLOURWAYS:** Playful in colour, MEDINA offers a comprehensive palette of six vibrant shades that are bound to brighten any interior with a kaleidoscope of hues. Bouquet and Paprika bring warm, lovely blush tones, while Pistachio and Azure are cooler options for a more nature-inspired theme. With a contrasting dark background, Camelia and Coral are great choices for creating bold statement pieces.
- **RATING:** With Halo easy-clean properties, MEDINA is a soft, washable and easy to clean fabric that is suitable for commercial and residential alike. Diverse and worldly, MEDINA's designs and striking colourways allow for an array of moods and looks to be created, while adding character and a part of the Mediterranean within a space.
