Coolum

Bring the outside in and the inside out

Coolum Collection Hanger

An exciting follow up to our popular Bondi range is our new outdoor collection, Coolum.

Inspired by the colours of summer, sandy beaches and our laidback lifestyle, each design has been specifically developed for the outdoors.

Designed to co-ordinate, all designs can be mixed and matched to create a bright and bold fashion statement for your home or holiday escape. Bold, reversible, geometrics work back with our existing outdoor plain, Kona, and our new two-tone outdoor plain, Noosa.

Suitable for both outdoor and indoor applications, these lightfast, safe* and durable fabrics will perform all year round in various settings. Developed to withstand the effects of prolonged exposure to sunlight, wind, rain and humidity, our Coolum collection is water repellent and has been treated for hygiene protection, inhibiting microbial development and mould stains.

The Coolum collection is Oeko-Tex credited and falls under our Halo range - our hallmark for high performance easy clean fabrics.

*Tested for absence of Free Formaldehyde (ISO14184-1:1998)
