## ORGANIC BRUSH STROKES WITH A LUXURIOUS FLOW - PRANA by Warwick

Overview: PRANA portrays energy and movement from its painterly strokes, creating an organic, abstract print. This expressionist geometric creates various moods through its colourways, bringing beautiful contrast to a space.

- Inspiration: Drawing inspiration from the expressionist period. PRANA has been elegantly layered together with lineal brush strokes, creating a modern and contemporary tribute to this expressive period in time. PRANA's design when used individually is beautiful with its own refined style. For a more eclectic feel – additional prints of CEDRIC, OKADA, OMAR, RIKA & SIMONA have been colour coordinated to harmonise together.
- Design: PRANA is printed on a plain warp knit to attain its heavy commercial durability. The digital print gives PRANA a soft, plush look with striking colour.
- Application: Ideal for commercial and residential applications, PRANA is perfect for adding lively contrast in all interiors. The plain matte velvet look updates the expressive stroke style creating a print ready for a modern world. A perfect choice for harmonising colours in a space with cushions and upholstery with the added benefit of Halo characteristics.
- Colourways: Fuchsia is warm and earthy with contrasting hues of magenta, mustard and chili offering a burst of saturation. Cobalt offers a cool and serene feel with tones of aqua to navy inspired by the calming flow of water. Forest boasts colours of the jungle with green tones of teal and olive.
- Rating: PRANA is FR tested with Halo's enhanced cleanability, making it ideal for all residential and commercial upholstery purposes. PRANA is a durable, versatile collection offering harmonising colour to tie together a scheme with dash of impact and interest.
